

kmc Productions *Wedding Day Timelines*

Quick Tips:

- Allow for an hour and 45 minutes to two hours for the bride's hair and makeup
- For each bridesmaid, allow for 30 minutes for hair and 30 minutes each
- For hair and makeup, have the bride go last or close to last; this means the bride will be the most fresh for the wedding, and the rest of the wedding party is dolled up for the photos of the bride getting ready
- Have your photographer and videographer arrive once the bride has started getting ready; this way the getting ready photos will be the most flattering
- If you're doing a receiving line, plan 5 minutes per 50 guests. For a ceremony with 150 people, you will need 15 minutes
- For family photos, plan for 2-3 minutes per shot. Some photographers are faster, but corralling family members can take some extra time.

Wedding Day 2PM Start Time (No First Look)
